

Designed for Messes and Routine Cleaning in Restaurants

Foodservice

 **ProTeam**®

Does your current cleaning routine really work?

If you use an upright vacuum for carpets, a broom for hard floors, and separate tools for dusting, cleaning efforts can be inconsistent and inefficient.

An upright vacuum is difficult to navigate in a restaurant environment. The beater bar and other moving parts quickly clog with food scraps, paper waste and other common dining room debris - and employees usually end up just using a floor sweeper or broom. The cleanliness of the restaurant then suffers.

ProTeam corded and cordless backpacks are different. They use direct suction to clean debris with no beater bar to clog or belts to break. Improve efficiency and provide more reliable cleaning of carpets, hard floors, windowsills, blinds and other hard-to-reach areas.

Cleaning for Health® & ProLevel Filtration®

The unique ProTeam method of suction-vacuuming cleans carpets, hard floors, and other surfaces without stirring up dust – so the air stays less dusty and operators can work in cleaner air environments.

- **CLEAN CARPET & HARD SURFACES** without stirring up dust.
- **AIR STAYS CLEANER**, reducing the need to dust as often.
- **VACUUMS DESIGNED TO IMPROVE** indoor air quality.
- **LOW DECIBEL LEVELS REDUCE** noise pollution.

- 1) Inner Filter**
Intercept Micro® Filter
- 2) Outer Filter**
Micro Cloth Filter
- 3) Dome Filter**
Plastic cage with
Foam Filter Media
- 4) HEPA Media Filter**
Reduces emissions

“This backpack vacuum designed specifically for foodservice reduced cleaning time in our facility, from 40 minutes sweeping to just 20 minutes vacuuming.”

Jeff R., Ted's Montana Grill

Cleaning Effectiveness**

Sweeping

In soil removal tests conducted at Turi Surface Solutions Laboratory:

A ProTeam Backpack vacuum removed more than 98% of the soil – a 10% increase with vacuuming compared to sweeping.

Experience productivity, comfort and innovation with the ProTeam GoFit® Series

Combining decades of experience, user insights and innovative engineering, the GoFit Series tackles your cleaning challenges. Vacuuming carpets as well as hard floor surfaces frequently and thoroughly with an efficient vacuum system can remove allergens and fine particles from your foodservice environment.

MULTIPLE MODEL OPTIONS — 3-, 6-, 10-quart corded option with the same power and efficiency

VERSATILE — choose the size for your comfort and cleaning needs

Productivity

Comfort + Ergonomics

Cleaning for Health

Ease of Use

Low maintenance & long lasting

The simple, elegant design of a ProTeam backpack utilizes fewer moving parts, meaning there are fewer parts to wear out and break down. The backpack's durable construction results in an average vacuum life of seven years.

PLUS, our backpack vacuums come with an industry-best warranty, which includes **3-years for parts, labor and motor and a limited lifetime warranty for molded body parts.**

ProTeam vacuums have lower repair costs than other vacuums. Compare your current vacuum parts and prices and see how much you can save!

Clean faster, save money

Backpacks clean 3x faster than a broom & 2x faster than an upright!

2,500 SQ. FT. Restaurant	Time to Clean	Days/wk	Weekly Cost*
ProTeam Backpack	18.3 mins.	7	\$27.76
14" Upright	48.8 mins.	7	\$74.01
12" Broom	1.2 hrs.	7	\$109.20

WEEKLY SAVINGS UP TO: \$81.44

That's \$4,234.88 in annual savings!

Pizzeria solves cleaning challenges with ProVac FS 6

“Running a pizzeria is a pretty messy business,” said Andy Miller, who has been with A. Papano’s Pizzeria for over 20 years. “Everyone seems to leave crust behind or big pieces of food debris.”

Miller needed a quick and effective cleaning method that would be easy for his mostly college-aged staff to use. He tried upright vacuums with poor results.

“I was blowing through upright vacuums,” said Miller. “They had to be replaced every year and a half to two years. And they didn’t pick up the big debris, so my employees would have to get on their hands and knees to pick up pieces under the booths.”

Searching for a better floor care method, Miller learned about the ProTeam ProVac backpack vacuum. It has fewer moving parts than an upright, which means fewer parts to break down or wear out. It also captures large debris seamlessly during routine vacuuming.

“With the backpack vacuum, the staff is not lugging a vacuum on the ground and hitting things with it, damaging tables and chairs,” said Miller. “The wand reaches under everything so much easier. It empowers everyone to do a really good job.”

Miller’s first ProTeam backpack vacuum lasted many years until a power surge damaged it beyond repair. When he replaced it, Miller liked that the ProTeam had upgraded the model to a triangular shape and more comfortable harness that could be adjusted for a comfortable fit on workers of very different heights and sizes, which is a huge benefit for his diverse and changing staff.

Perhaps most importantly, Miller believes the investment in a ProTeam backpack vacuum has improved the longevity of the restaurant’s carpeting.

“The carpet in the dining room has lasted for 15 years. I get it properly cleaned twice a year, but, before we had the ProTeam vacuum, I replaced it after 5 years,” said Miller. “I have talked to friends who own other A. Papano’s stores, and the ones that don’t use the ProVac have had to replace their carpets more frequently,” said Miller.
