

Surviving Budget Cuts & Cleaning More

Higher Education 

 ProTeam®

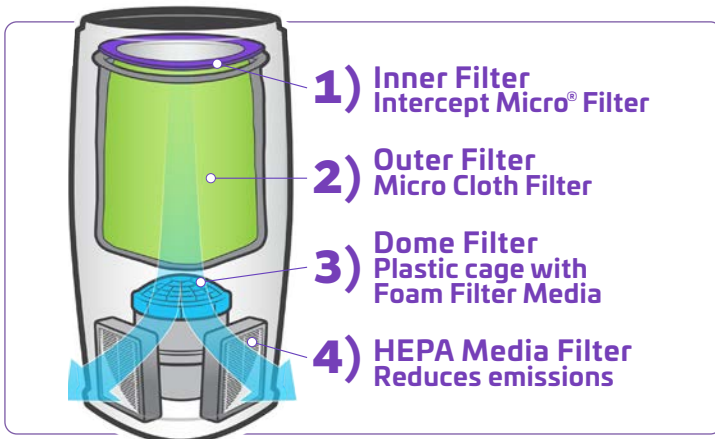

Does your cleaning routine save you time & money?

The appearance of a clean environment often strongly impacts public perception of an educational institution and is an essential component of a healthy learning space. Additionally, removing germs and bacteria can reduce student and faculty absences, fostering a more conducive environment for education.

ProTeam offers the right tools for the right job, with quiet, versatile, compact, easy-to-manuever vacuums featuring powerful and advanced filtration. Our ProLevel Filtration® System helps decrease allergy and asthma triggers in indoor environments by capturing and containing harmful particulate.

Cleaning for Health® with ProTeam vacuums

In this industry, many clean for appearance alone, ignoring microscopic particles that can harm health. When we vacuum buildings intending to remove potentially damaging molecules, we improve the overall wellness of the occupants.

A review by Carnegie Mellon of five separate studies evaluating the impact of improved indoor air quality on asthma found an average **reduction of 38.5%** in asthma in buildings with improved air quality.

Experience productivity, comfort and innovation with the ProTeam GoFit® Series

Combining decades of experience, user insights and innovative engineering, the GoFit Series tackles your cleaning challenges. Vacuuming carpets as well as hard floor surfaces frequently and thoroughly with an efficient vacuum system can remove allergens and fine particles from the university environment.

MULTIPLE MODEL OPTIONS — 3-, 6-, 10-quart corded option with the same power and efficiency

VERSATILE — choose the size for your comfort and cleaning needs

Productivity

Comfort + Ergonomics

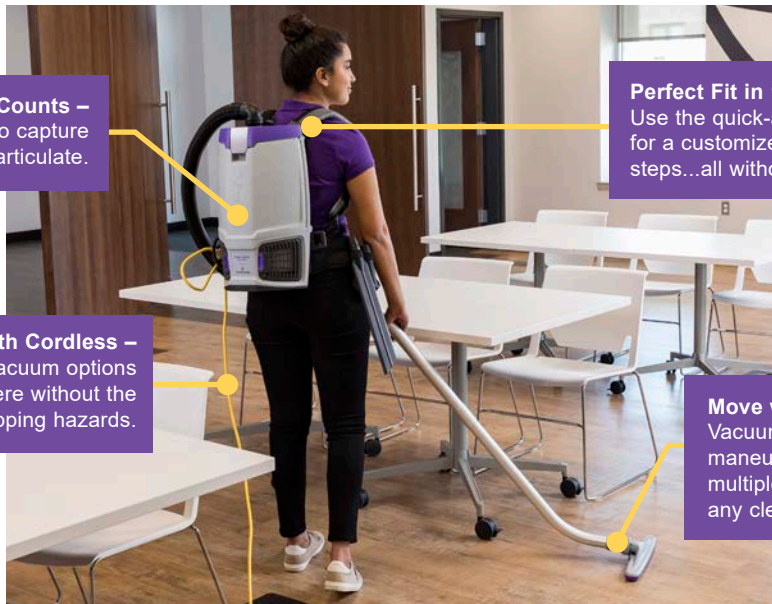

Cleaning for Health

Ease of Use

From fit to function

This reimagined, reshaped and remarkable lineup includes corded and cordless versions, featuring our ProLevel Filtration® system and a quick-adjust harness for unparalleled productivity and comfort. The GoFit Series is designed to clean anywhere from large open spaces to cramped classrooms and around auditorium seating.

It's What's Inside That Counts –
Multi-level filtration system to capture and contain microscopic particulate.

Take it a Step Further with Cordless –
Choose one of our cordless vacuum options to be able to clean anywhere without the constraints of outlets or tripping hazards.

Perfect Fit in 1, 2, 3, 4 –
Use the quick-adjust harness system for a customized fit in 4 easy to follow steps...all without tools!

Move with Ease and Versatility –
Vacuum's reduced profile allows for easy maneuvering around obstacles with multiple tool kit options to pick from for any cleaning challenge.

Comfortably go anywhere

Redefine mobility and go anywhere without the constraints of cords and power outlets.

The GoFit Cordless units come in 3 and 6-quart sizes and are ideal for navigating freely without potential tripping hazards, offering extended runtimes with 4Ah or 8Ah batteries and a high/low power switch for tailored cleaning power.

“It is ideal for vacuuming between desks and tables. I loved using this vacuum.”

Llianeth G., Atlanta, GA

Weber State University goes cordless with GoFree Flex Pro

In the year since Custodial Manager Miguel Lopez shifted his vacuum fleet to GoFree Flex Pro cordless backpack vacuums, he can point out the best reason to go cordless. "Efficiency is number one."

"In addition to administrative and faculty offices, we have classrooms, labs, break rooms, conference rooms, study spaces, a gallery, a library," says Lopez. "The scheduling is pretty tight, we have to plan around the classroom schedules, which start at 7 am and continue into the night. So a lot has to get done before 7 am or after 10 pm."

We have 65 ProTeam battery-powered backpack vacuums," Lopez explains.

"With these, you don't have to worry about plugging and unplugging the vacuum. That saves a lot of time."

Lopez's cordless fleet fits into a larger, time-tested efficiency strategy, Team Cleaning®.

Each member in a Team Cleaning system specializes in a focused set

of tasks, and coordinates their efforts to maximize efficiency and productivity. "We implemented Team Cleaning about 6 years ago," says Lopez. "And we have refresher training every year. Team Cleaning is the very best system we've used."

Lopez has been able to take full advantage of the Team Cleaning method, using the time saved by his cordless vacuums for other tasks.

"We could allocate more time to detailed cleaning, high and low dusting, window cleaning. Wherever we need it the most."
